

GIŻYCKO I JEGO ATRAKCJE

Wiktoria Wykusz kl. VIII D

Giżycko is one of the many beautiful towns situated on the Masurian lakes. There are many monuments and tourist attractions. I will present some of them below.

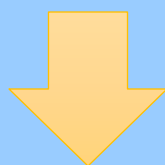

1. Municipal Forest

On the outskirts of this town there is a big forest. It's a great place to relax and spend some time with friends or family. Except many recreational routes there are places for campfire or picnic and a small bridge. In the middle of the forest there is also a small lake.

2. Beach and pier

Also on the outskirts of the city is a large pier and beach. There are many benches, sunbeds and restaurants. There is also big skatepark and playground. During the holidays, you can eat tasty

Beach and pier

3. Saint Bruno hill

Near the beach there is the hill of Saint Bruno.

At the very top there is a large cross and benches. There is a beautiful view of the city. You can also have campfire there, or do a picnic with friends or family. I like this place very much.

4. Water tower

In Giżycko, near the city center there is a water tower. It was built in 1900. and supplied the city with water for almost a century. Now it is a monument and tourist attraction. At the very top there is a cafe and an observation deck from where you can see the whole city.

Water Tower

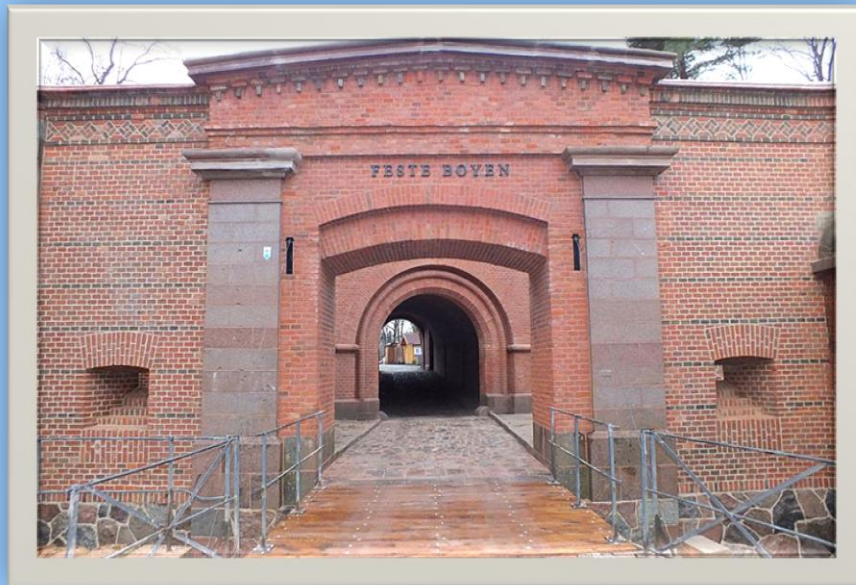

5. Boyen fortress

The boyen fortress is an old fortress that was used to defend the city. It's large in size and is divided into several parts. Now it is open to tourists and has a museum and an amphitheatre. During the season, there are pretend battles and festivals.

6. Rotary bridge

There is a rotating bridge on the channel connecting the two lakes. It is a monument from the eighteenth century which is currently one of the best tourist attractions in Giżycko. It is opened and closed at specific times for cars and boats.
